In addition, it has hosted the Meeting of Ambassadors and Representatives of OIC member countries.

In this regards, I would like to share you the recent years achievements of Civil Status Registration Organization of the Islamic Republic of Iran.

I feel obliged to inform that the Iranian organization has been passing through its procedural, structural and functional modernization path in recent years and is heading towards being introduced as a good and advanced organization.

The Iranian Civil Status Registration Organization as a governmental and sub-structural organization has the duty of:

- Registry of the four vital events
- Issuance of ID. Documents for Iranians across the country and in world
- Production and release of population statistics and immigration information.

One of the important functions of this Organization is to play role in determining and confirming identity. It is based on this function that Civil Status Registration Organization is considered as governmental and authoritative organizations. In addition, changes in the process of entering the name and surname, changes in titles...are engineered via Civil Status Registration Organization. Furthermore, official documents that are issued by Civil Status Registration Organization such as birth certificate and national ID. Card not only indicates the personal identity of the Iranians, but also it shows the collective identify of the country in uniform and single documents that are distinguishable from identity documents of other countries.

Another special task of this organization is to help in promoting the efficiency of the government. In this regards, the first and most important subject is the need to human information and statistics which is produced and released by Civil Status Registration Organization.

In addition, entry to the E-government era; too, requires confirming the individuals' identity in virtual space and intelligent national ID. is the key to this task. By recognizing that necessity on time, the Civil Status Registration Organization has taken measures to perform this highly important and strategic task.

Modernization period:

Modernization era of this Organization has been started in recent years and is reaching its final stages with high acceleration and its conclusion will introduce this organization as an advanced organization.

In the procedural, structural and functional modernization period of the Civil Status Registration Organization, authenticity of identity documents is the most important

and core of principles and designing changes is performed based on the priority of this important principal.

Authenticity is the important chapter of services of this organization and in modernization chapter, it is the significant distinction of this organization with many counter regional and international organizations and its similarity with advanced and pioneer organizations around the world. National intelligent card as the icon of this functional change is the key and gate to enter into E-government.

Another important issue in modernization of Civil Status Registration Organization is facilitation of receiving services by people and observing clients' rights.

What happened in modernization period?

In this connection:

- In vital event registry area, despite the vast area of the country, the statistics show that around 96 percent of birth events and 94.5 percent of deaths are registered within the legal deadline of 15 and 10 days; however, measures have been taken to intensify requirement for registry of events in legal deadline.
- In application of demographic information base of the country as the most important identification source in Iran, there are more than 80 online links to this base and their executive operations including identity confirmation and search is performed property and fast with no need to paper documents.
- For the improvement of safety and protection factors in handling document and papers issuance and to issue in mechanized form, so far, all identity cards (birth certificates) are printed by considering security characteristics with high safety level in one hundred percent mechanized way.
- Regarding the production and publication of demographic and population statistics and information too, the Civil Status Registration Organization has recognized this critical need and has performed good activities in the registry, analysis and releasing demographic statistics in the country to meet the statistical demands of this section and prevent multiple sources in releasing statistics, its problems and large costs of collecting statistics and information,

and to create an updated and comprehensive statistics to be used in different fields of health, economy, social, welfare, cultural...

- By aiming at providing a ground to share information of offices for the purpose of expanding effective and fast services, the electronic archive of ID. Documents, the Iranian organization has designed and implemented electronic archive of documents (including birth and death certificates) and by operation of that archive and establishing electronic link network, all departments will have access to each other's documents and services could be provided with no need to the local civil status registration office that issued the identity card and merely through the referred department. In addition, we could enjoy promoting safety factor and documents security. This has led to the updating, precision and facilitation in service provision by the Civil Status Registration Organization and promotes this organization into an E-organization.
